# DESCRIPTION

Antibes is a small-sized parasol with an elegant, practical design, ideal for pool areas and hotels.

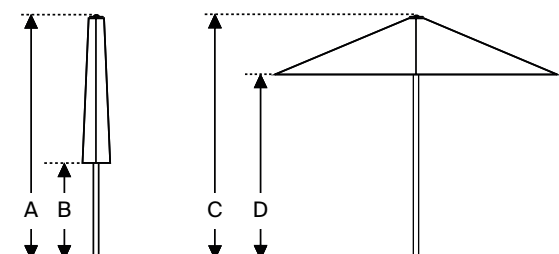

# MATERIALS

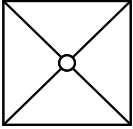

- Structure : Aluminium
- Fabric: Olefin

# MAIN COMPONENTS

# MESURES

Model	A	B	C	D
	235 cm	80 cm	235 cm	195 cm
2,2 x 2,2 m				

# MAINTENANCE

The ANTIBES parasol is a unique product in which the construction solutions and materials used are of premium quality and deliver maximum durability. Therefore, routine maintenance is minimal, allowing you to keep it in perfect working order and with a pleasant appearance with only limited interventions. Below are a number of simple guidelines that must be followed.

## CANOPY

Canvas maintenance is limited to cleaning. If you want to keep the part exposed to the weather as good as new, clean it 2 or 3 times a year to prevent dust or pollution from settling on the canvas due to sun exposure.

- OLEFIN: Dry cleaning

## STRUCTURE

The aluminium must be cleaned using water and neutral soap.

## WARNING

The parasol's main function is to reduce exposure to solar rays; it does not provide 100% protection from rain.

We believe in the *elegance* of engineering.
