DESCRIPTION

Sintra is a parasol with LED lighting and integrated solar cells, designed to create welcoming and functional atmospheres for outdoor events and spaces.

MATERIALS

- Structure : Aluminium
- Fabric: 100% PP olefin (220 g/m²) or SR acrylic (330 g/m²)

MAIN COMPONENTS

DIMENSIONS

Model	A	B	C	D
 4 x 4 m	362 cm	65 cm	239 cm	225 cm

MAINTENANCE

The SINTRA parasol is a unique product in which the construction solutions and materials used are of the highest quality, ensuring maximum durability. As a result, regular maintenance is minimal, allowing you to keep it in perfect working condition and with an attractive appearance with only a few interventions. Below are some simple rules that must be followed.

CANOPY

Canopy maintenance is limited to cleaning. To keep the exposed area looking like new, clean it 2 or 3 times a year to prevent dust or pollution from settling on the fabric due to sun exposure.

- ALTan2: Dry cleaning
- Acrylic: Dry cleaning
- Olefin: Dry cleaning

STRUCTURE

Aluminium should be cleaned with water and neutral soap.

ATTENTION

The main function of the parasol is to reduce the incidence of sunlight; it does not provide 100% protection against rain.

We believe in the *elegance* of engineering.
