DESCRIPTION

Tavira is a lightweight and practical parasol, designed for hotels and pools seeking an elegant and functional solution.

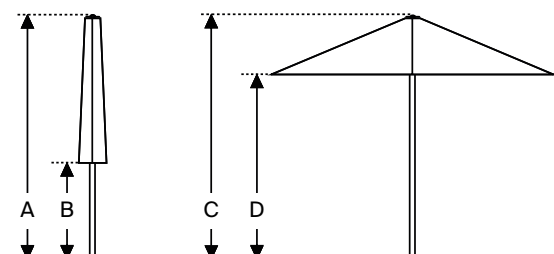

MATERIALS

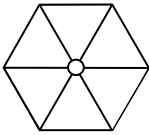

- Structure : Aluminium
- Fabric: Olefin

MAIN COMPONENTS

DIMENSIONS

Model	A	B	C	D
	233 cm	100 cm	233 cm	195 cm
Ø2,5 m				

MAINTENANCE

The TAVIRA parasol is a unique product in which the construction solutions and materials used are of the highest quality, ensuring maximum durability. As a result, regular maintenance is minimal, allowing you to keep it in perfect working condition and with an attractive appearance with only a few interventions. Below are some simple rules that must be followed.

CANOPY

Canopy maintenance is limited to cleaning. To keep the exposed area looking like new, clean it 2 or 3 times a year to prevent dust or pollution from settling on the fabric due to sun exposure.

- OLEFIN: Dry clean only

ESTRUCTURA

Aluminium should be cleaned with water and neutral soap.

ATTENTION

The main function of the parasol is to reduce the incidence of sunlight; it does not provide 100% protection against rain.

We believe in the *elegance* of engineering.
