

CARREFOUR SAINT DENIS

PROJECT DESCRIPTION

A new covering designed for the pedestrian exit of the shopping centre's underground cark park.

CHARACTERISTICS

Material	PES/PVC Ferrari ref. 1002 S2
Application	Commercial centres
Surface	250m ²
Location	Saint Denis
Architect	Hors Limites Architecture
Year	2013

TECHNICAL DATA

The structure rests on the two lateral lines of the pavement gap, which allows the incorporation of the travelers. The textile membrane, made from two pieces, is

wing-shaped, which characterises the metallic elements.
